*Verbal comment number follows the written comment number in beginning sequence.		

The following are the transcripts from the hearings in Anchorage and Soldotna, Alaska including responses to specific verbal comments received on the DEIS. Similar to the written comments, each individual's set of comments are assigned a unique number. For each speaker, each comment, or issue is bracketed and assigned a letter code. Responses to those comments are assigned the same letter code, and are provided on the transcript next to the corresponding comment.

Where appropriate, responses to selected comments have been referenced ahead to the supplemental information provided in Chapter 2; or to Volume II, Mitigation Plan; Appendix A, USFWS Compatibility Determination; or Appendix B, USACE Draft Section 404(b)(1) Evaluation.
